IPv6 ready!

Welcome back Pal

Your tunnel profile looks as follows:

Your Email:	toke@inf.elte.hu	
Our tunnel endpoint:	IPv4	212.25.25.23
	IPv6	2001:08e0:abcd::19d/126
Your tunnel endpoint:	IPv4	157.181.160.97
	IPv6	2001:08e0:abcd::19e/126
IPv6 Subnet:	Y	2001:08e0:abcd:67::/64
DNS entry:		toke.tb.as8758.net
DNS Server for reverse delegation: Separated by semicolon (;)	dtoke.inf.elte.hu; dns.inf.elte.hu	
Tunnel expires:		2006-06-07 15:30:27

Change parameters | Renew tunnel

If you like to get a /64 subnet routed to you over the tunnel, please send a email to noc@as8758.net with a short explanation what you like to do with the subnet.

Below you can choose your operating system and press generate and you will receive a script which automates the initialisation of the tunnel at your side. If you have corrections, improvements or implementations for new operating systems please mail them to noc@as8758.net for inclusion.
